**Stacy Garcia for Townsend Leather Announce Two New Designs**

*Resurfaced* and *Kinetic* expand the established Stacy Garcia leather offering further

November 2016 – Stacy Garcia Inc. and Townsend Leather are excited to bring their two new leathers, *Resurfaced* and *Kinetic*, to the market. Both leathers will make their debut at this year's Boutique Design tradeshow (BDNY) in New York City.

**Resurfaced**

Experience the timeworn and aged appearance of *Resurfaced*, a hand-painted multi-layered design which renews and beautifies the leather's natural grain surface. Various colors hand-brushed in multiple shades are applied to each section of leather creating tonal depth and revealing a nuance that is rich yet subtle. *Resurfaced* is available in 6 soft and sophisticated mineral hues.

"Our new designs aim to enhance the natural grain surface of the leather," says designer Stacy Garcia. "*Resurfaced* and *Kinetic* are multi-dimensional but in a soft and subtle way. They aren't over embellished—which help in accentuating the natural beauty within each hide."

Travel beyond the boundaries of traditional linework and flat planes with *Kinetic*, a non-directional and multi-dimensional design which radiates a pulsating sense of energy. This organic-inspired leather emboss is hand-tipped with a subtle sheen which beautifully highlights the raised surfaces of the pattern. *Kinetic* is available in 6 energetic and enticing colorways.
