

TRIFECTA COWHIDE

PRODUCT CHARACTERISTIC SHEET

PRODUCT DESCRIPTION:

Experience geometric perfection with Trifecta, a small scale triangular pattern which constructs a lively three dimensional appearance.

This architectural design is strategically embossed and flood-coated to play with depth perception, creating a textural surface. Trifecta is available in 7 standard refreshing colors ranging from refined neutrals to soft hued pastels.

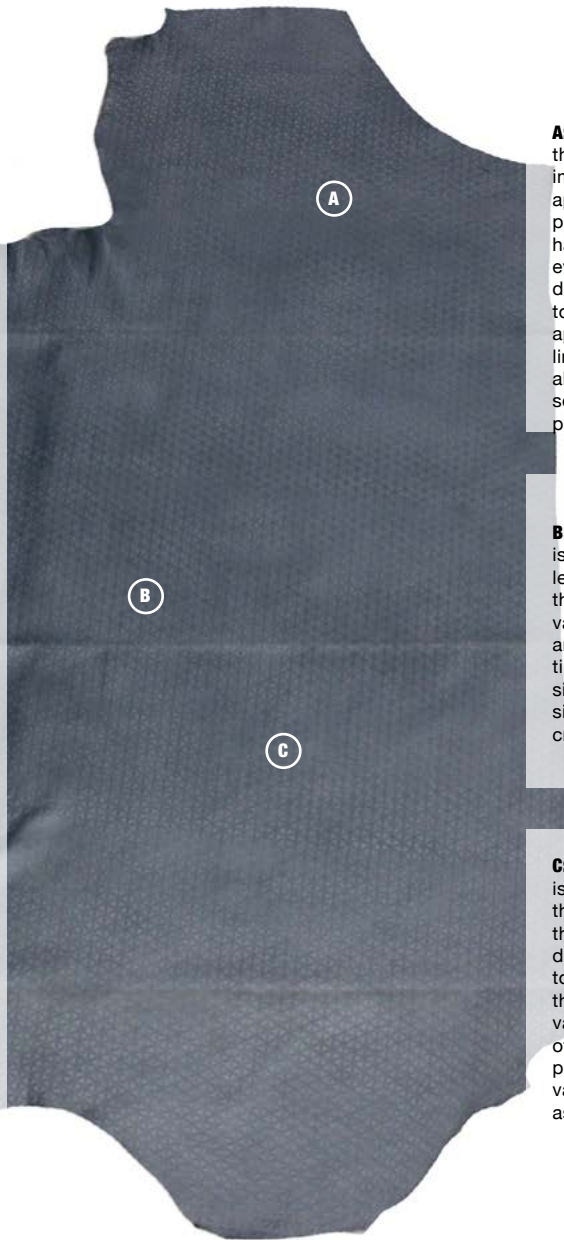

CHARACTERISTICS:

Trifecta Cowhide is a lightly-finished, protected leather and hand-tipped. Natural variations in color, tone and texture are part of the beauty of this leather artwork and highlight each side's unique history and natural markings.

A match line from the embossing impression is apparent in several places throughout the half hide. We take every step possible during production to minimize the appearance of match lines but they will always be there, to some degree, in this particular product.

Therefore, Townsend can alternatively provide this leather as pre-cut panels of 52" X 25" that do not show any match lines at all.

As a Hand-Tipped leather, there will be some variation in coloration and boldness of the tipping effect within a side and from side to side.

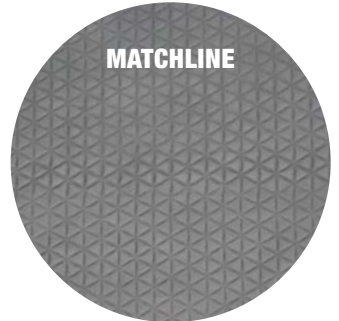

A: A matchline from the embossing impression is apparent in several places throughout the half hide. We take every step possible during production to minimize the appearance of match lines but they will always be there, to some degree, in this particular product.

B: Trifecta Cowhide is a Hand-Tipped leather, therefore there will be some variation in coloration and boldness of the tipping effect within a side and from side to side, due to its hand-crafted nature.

C: Trifecta Cowhide is a natural product, therefore it may take the embossing effect differently from area to area and therefore, there will be some variation in the depth of the embossed pattern print. This variation is controlled as much as possible.
